- 1: Our exchange student Abigail Sexton in Finland.
- 2: Helen Davidson talking about "Brooches" and her exhibition details at the Library Museum

### RYPEN (Rotary Youth Program of Enrichment)

For 35 years, RCAN has hosted an annual RYPEN camp for local year 10 and 11 students. The recent camp at Valley Homestead near Myrtleford, held on 17-19th May, included 29 students plus Rotary members, and facilitators. The event featured various physical and mental activities focusing on motivation, life skills, self-image, goal-setting, teamwork, and fun in an informal and interactive setting, challenging students over the two days.

The fun, but intense physical experience of the **FREE FALL SLIDE** had students hanging 7 metres off the ground in a vertical position before the slide takes them to rest horizontally. All were encouraged to have a go. Some needed encouragement to let go and others didn't quite get the courage but everyone found it exhilarating as it stretched their mental and physical boundaries.

😊 **Have a peek at this video of the students in full action!** [RYPEN May 2024](#)

Students and their family were invited to our Rotary meeting on June 11th to discuss their camp adventures.

The event drew a large crowd, with some students expressing their thoughts on the camp. Everyone participated in a few camp-inspired activities, creating an enjoyable evening for all. The students also enjoyed reconnecting with the friends they had met at camp.

If you've been listening to our local Community radio station **REM 107.3FM** you may have heard some RCAN members being interviewed by Karen Cronin on Monday talking about the BOOK FAIR and Travel Escape Club. REM 107.3 broadcast from the Kiewa Street Market every Sunday morning and do a fabulous job supporting community initiatives

Talking about interviews, did you see the article in the Border Mail by Jodie Bruton last week. This article was about the impact that a child's life threatening illness has on a family and how "Country Hope" (one of the main beneficiaries of TEC this year) is providing invaluable support. Here's the link to the digital article. [BM article - When life is impacted by a child](#)
